## Education

- 2018-2021 **42**, Paris.  
Disruptive Software Engineering Program.
- 2013-2017 **engineering school**, *HEI(Hautes Etudes d'Ingenieur)*, Lille.  
General engineering school - Major: Mechanical Engineering.
- 2010-2012 **PCSI Preparatory school**, *HEI*, Lille.  
Two-year intensive program preparing for Engineering schools.
- 2010 **Baccalaureat math major**, *Lycee Edgar-Poe*, Paris.

## Work experience

- 2017-2018 **Design for Escape Game**, *Freelance*, Paris.  
Design and production of puzzles for escape game using 3D printing and laser cut.
- 2016 **EWP: Eleven Weeks Project**, *Fimatec*, Lille.  
Research project on low energy recycling for datacenters.
- 2015 **Mechanical school projet**, Lille.  
Group projet on designing an electrical tricycle (Choosing specifications, stability study).
- Summer 2013 **Hediard**, Paris.  
A 5-week internship on one of Hediard logistic site : supply-chain, handling client orders, quality control.

## Languages and computer skills

- Core C, Shell, Makefiles, Git, Docker
- Basic C++, Python, HTML, CSS, Javascript, PHP, SQL, Mathematica
- CAD Catia V5, SolidWorks, Onshape
- Others PCB design (Eagle), arduino, raspberry pi, laser cut, 3D printing
- French Native
- English Fluent (C1)

## Miscellaneous

- Cooking, cycling (Paris-Utrecht during summer 2015)
- Travel (Asie, Europe), snowboard and video games
- Participation to "24h de l'innovation (2015)", Finalist for the MDF2018 (Best dev of France)
